

Final Presentation for Vision Maker Media

Addison Bailey & Krista Hartley
Doane University
Funded by the Garver-Leibman Research Fellowship

Project Overview

- Project Goal
 - Analyze programs with VMM's 4 values
- Native Youth Media Findings
- Creative Short Fellowship Findings
 - Updated: Values from Narratives
- Possible Survey Instruments (Updated)
 - Dashboard based on randomly generated mock data
- Next steps

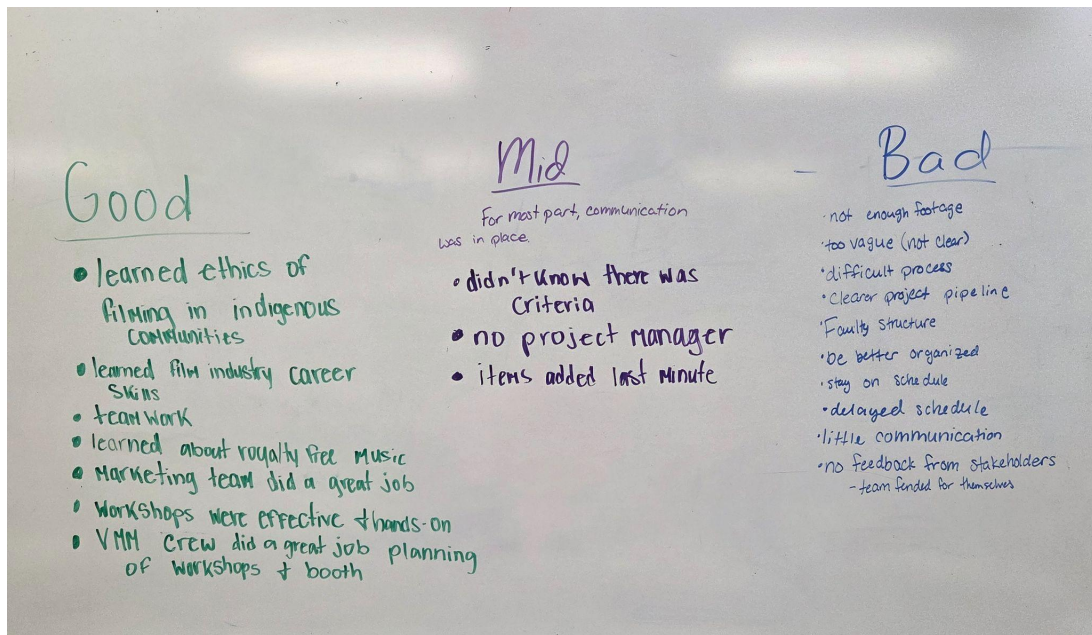

Native Youth Media

What We Have

- Noticed compiled data from 2024 and 2023
- There were 3 different types surveys that were unable to be compared usefully
- Only a total of 9 surveys that were after the project and had comments.
 - We tried to do some analysis
 - Here is the beginning

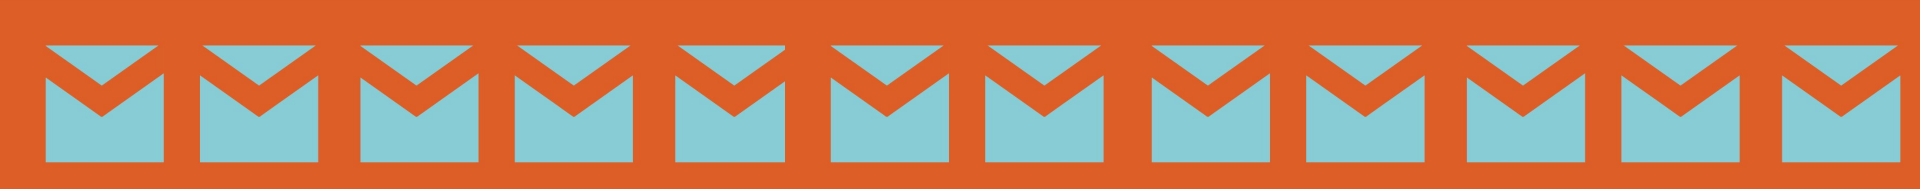

Feedback from Comments

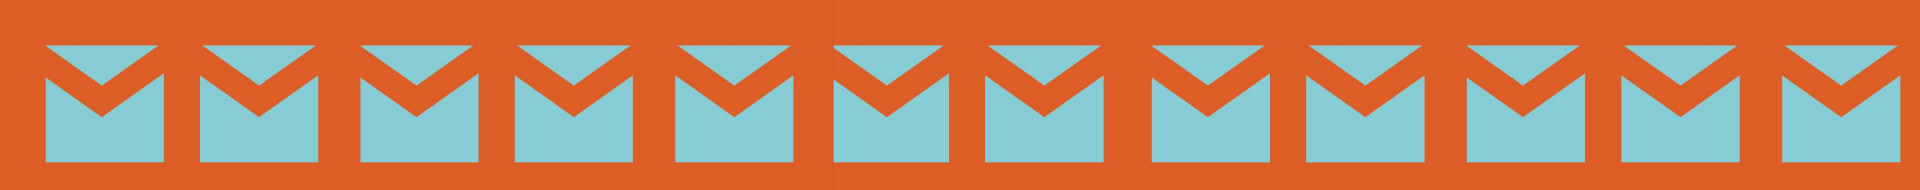

Overview

Skills Learned
Communication
Organization

However, because the surveys were all different, we could not do any significant analyses.

Creative Shorts Fellowship

Creative Short Fellowship Data

- We had 38 surveys
 - Only 2 were post surveys
- We had 29 reports
 - We used content analysis to look for VMM's 4 values
 - Started with the value of "Community"
 - Split up reports into units
 - Then gave each unit a score from 0-3
 - Then averaged the score from all units to give the report its final score
 - Here is the framework we used

Community

Framework used to quantify Community within the filmmaking process.

Intensity Level	Definition	Example Indicators
0 - Absent	No mention of interpersonal connections.	The fellow works entirely independently; focus is solely on technical tasks.
1 - Low	Brief or surface-level mention of others.	"I met with my cohort once"; "I saw other fellows at the office."
2 - Moderate	Active, regular engagement with others. Seeking and using feedback	"Regular collaboration with peers on shared challenges"; "Seeking advice from the group."
3 - High	Community is central to the experience and transformative.	"The fellowship community transformed my approach; we meet weekly and support each other's projects."

Examples

3

[UNIT 2 BEGINS] I attended ImagineNative Film Festival and met with some of the folks at Nia Tero to potentially secure a little more funding so that I can cover the costs not funded by Vision Maker. It was a great meeting and I look forward to hearing from them. I also met people who work with the festival so it was good to get to know them and give them a heads up that I would be submitting a film next year. I have learned that developing relationships with festival programmers is a good thing so that's something I'll continue to work on. **[UNIT 2 ENDS]**

1

[UNIT 3 BEGINS] Yvonne and I had a virtual meeting. We talked about my production timeline and laid out the goal plan. I followed VMM on IG but cannot on FB as I am no longer on FB, my account was hacked and disabled. I completed the pre-survey. I uploaded my headshot to Dropbox. **[UNIT 3 ENDS]**

Community (Average Values)

0-No mention of
collaboration

1-Surface level
mention of others

2-Regular
engagement with
others

3-Community is
central to the
narrative

Shift of Focus

- The reports were mostly about the filmmaking process. This inherently has community involvement.
 - Not many reports specifically mentioned Generational Wisdom, Vision, or Traditions
- We had a meeting with Francene
 - She mentioned Transformation within these projects
- We then performed content analysis of the narratives with Transformation

Transformation

Framework used to quantify transformation during the filmmaking process.

Score	Level	Description	Example Indicator
0	Absent	No mention of change or growth. The narrative is purely descriptive or task-focused.	"We completed principal photography in six weeks."
1	Low	A minor adjustment in skill, habit, or approach. The change is acknowledged but not deeply examined.	"I learned to communicate my vision more clearly to the DP"; "I was inspired by..."
2	Moderate	A meaningful shift in perspective, creative process, or professional identity. Actively seeing impact. Feedback was received and put in place.	"Working with the editor forced me to let go of footage I loved." "I can feel my skills growing."
3	High	A fundamental transformation. The participant recognizes a change that redefines their artistic voice, leadership approach.	"I have realized my potential ...leading the camera department"; "I am carrying forward these techniques by teaching the next cohort"; "I have taken full ownership of this story and it has changed my career trajectory."

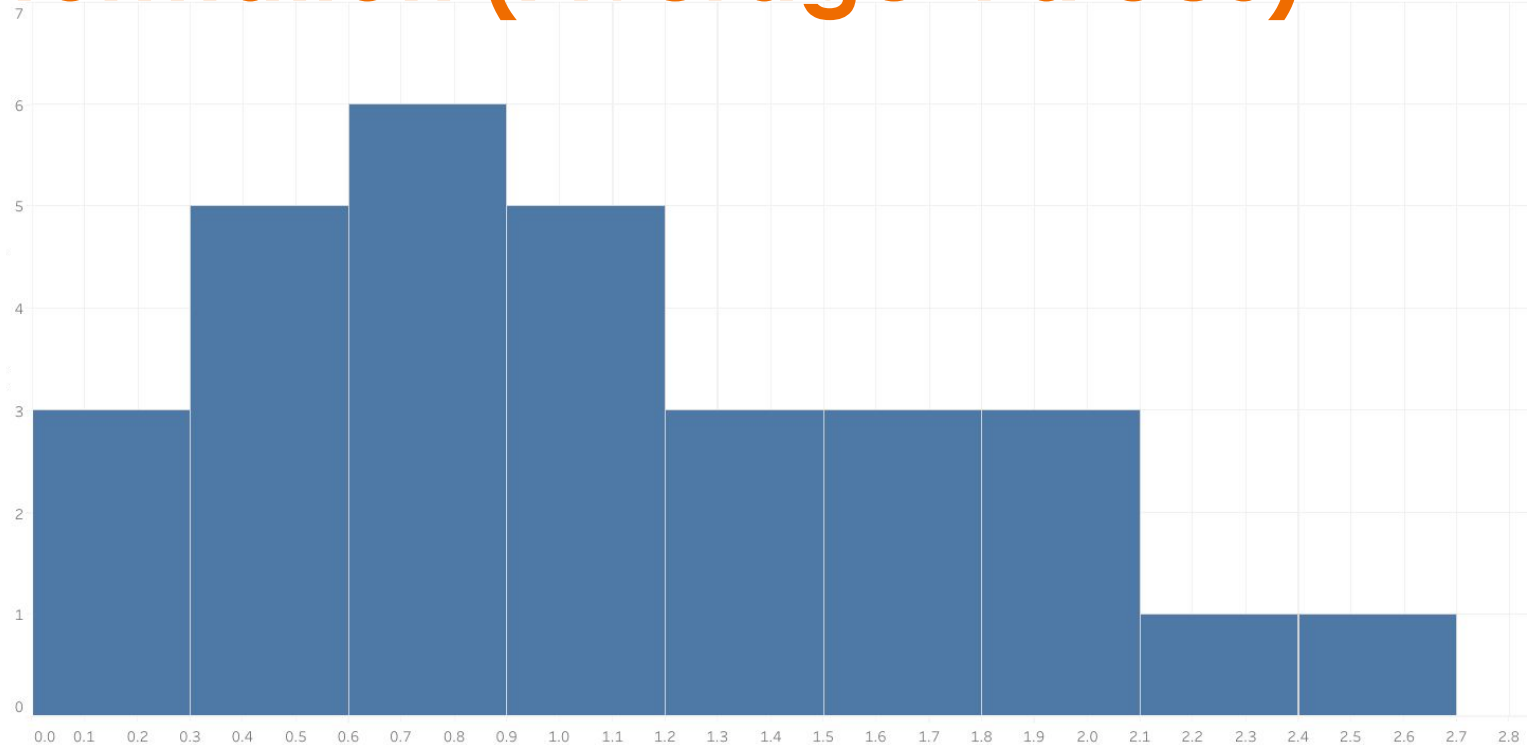

Examples

1 [UNIT 5 BEGINS] **Dylan additions Budgeting has been discussed for the final pieces of post, deliverables, marketing, and for the festival run. We have been judicious enough to cover all of our bases. We have been working on future deliverables, as well. We have begun sourcing a Title Report/Title Opinion for the film's Errors and Omissions policy. We have also been working with seasoned art department coordinators for the Visual Art Cue Sheet which was a new document for our team. Our EPK plan has been discussed and a clean and elegant document will service our needs best. [UNIT 5 ENDS]

3 [UNIT 6 BEGINS] Overall, Emma has been able to see the film take shape from the page all the way through post and has been a spectacular guiding force behind the short. The film is poised to have a wonderful festival run and has been the bedrock for a beautiful creative career in the years to come. Redbird was a true joy to produce and I'm grateful that I was able to see Emma step into her power and bring her vision to life with the help of VMM and a host of incredible creatives. [UNIT 6 ENDS]

From the Redbird Report

Transformation (Average Values)

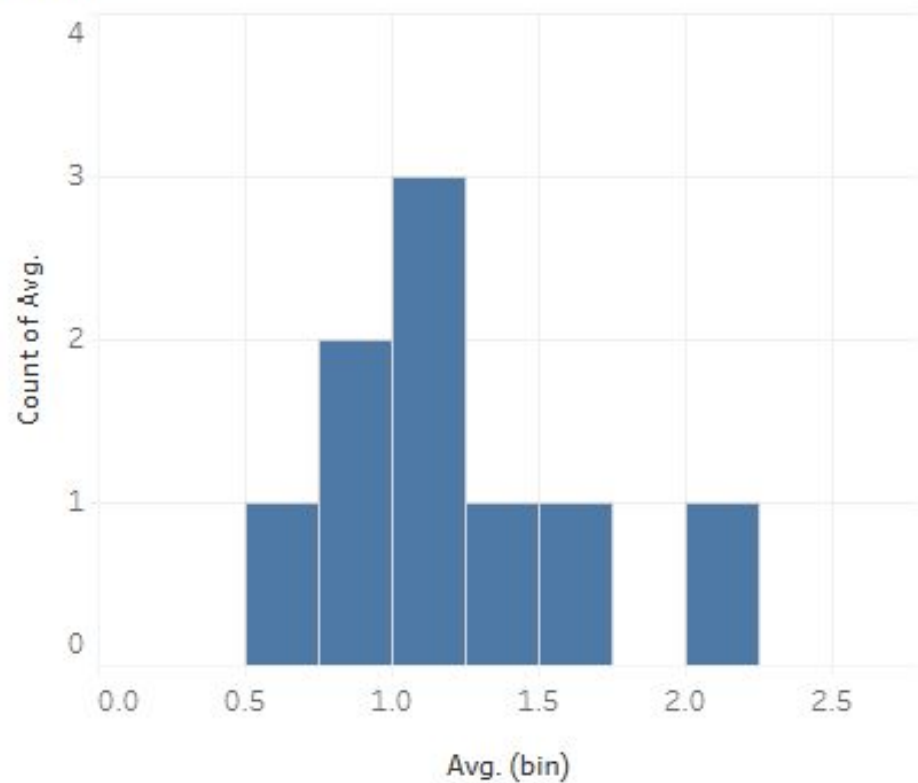

- Minor change or adjustment to feedback

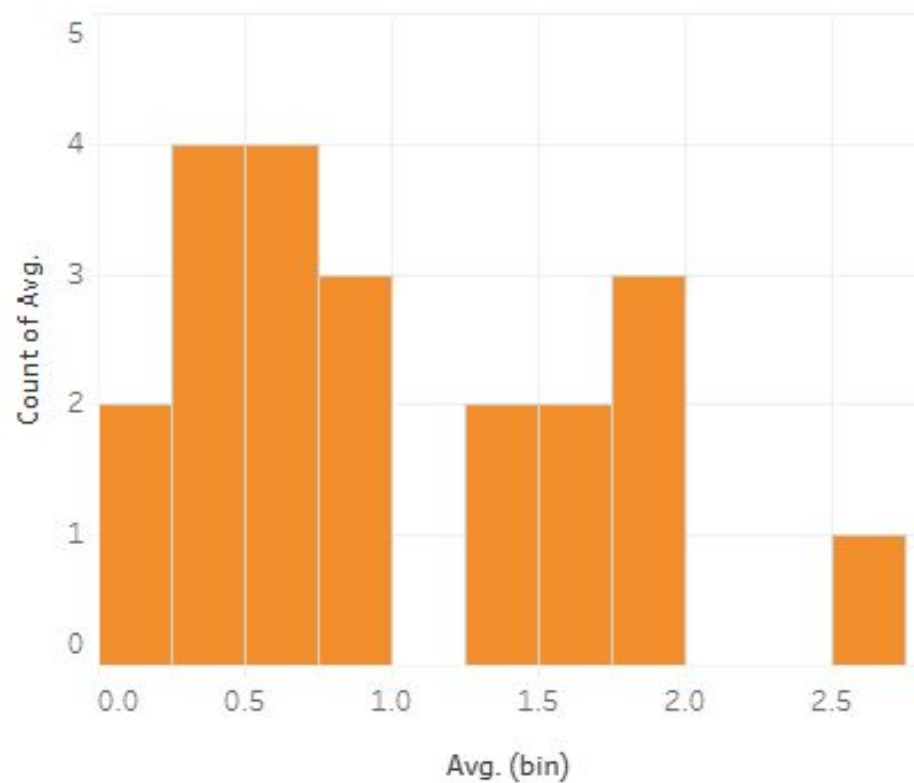

- A meaningful shift in perspective, creative process, or professional identity

Transformation

Mentor

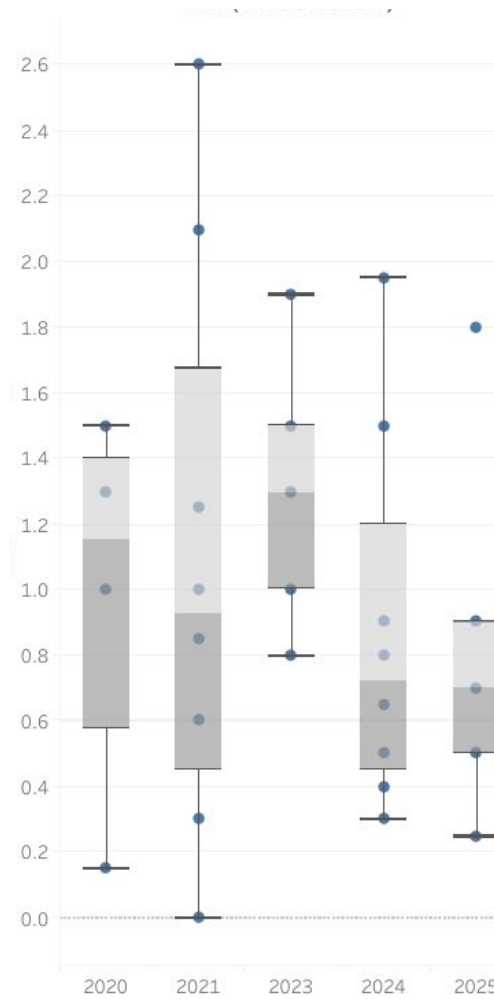

Mentee

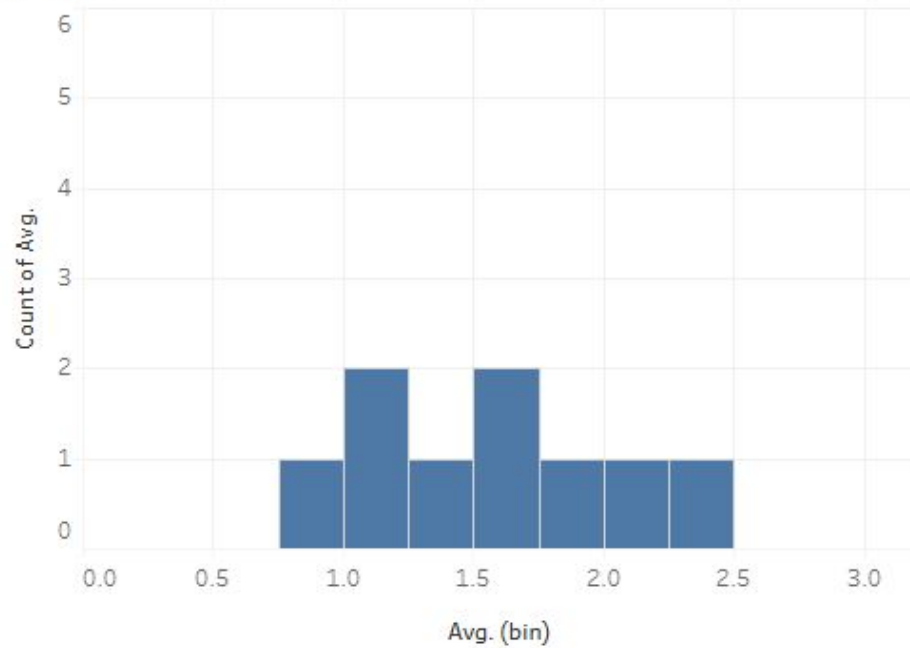

Transformation

- A meaningful shift in perspective, creative process, or professional identity
- Minor change or adjustment to feedback

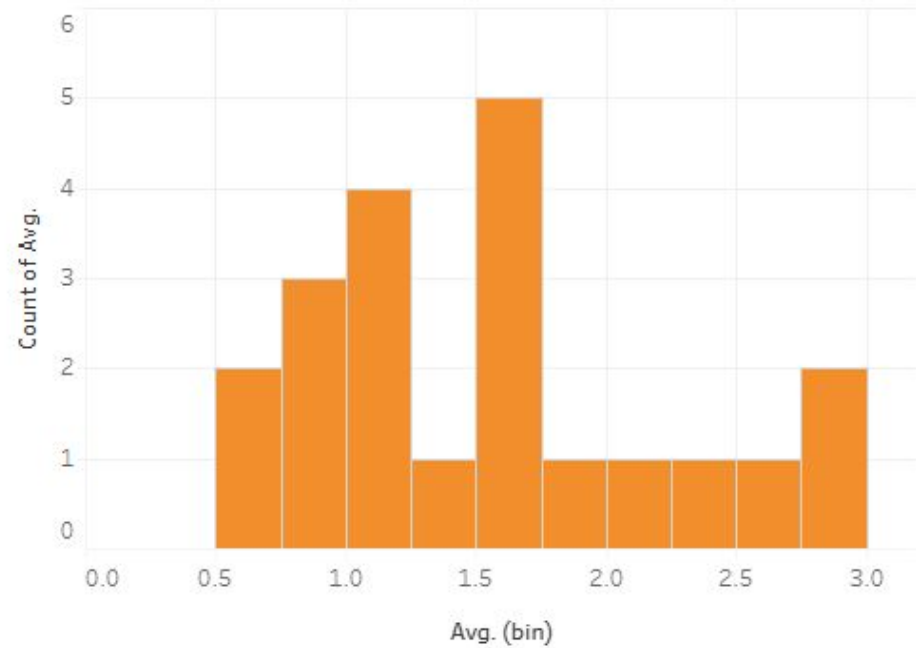

Community

Mentor

Mentee

However...

Community and Transformation show up at its highest level on 11 of the narratives, but we learned it is hard to measure in these free-form reports. But we believe Community and Transformation are happening!

Here are some quotes that we believe show high levels of Community and Transformation.

Community Quotes

- “Our hope is that this version of the game can generate interest in the Menominee language for younger Menominee players and can be used to help with language revitalization.” - Menominee Homecoming Report
- “Our focus is on shaping a film that honors the legacy of stickball, uplifts the voices of its players—especially the women of the Lady Red Warriors—and connects with audiences across Native and non-Native communities alike.” - Courage Report

Transformation Quotes

- “Amman reassured me that this is just part of the journey, and that once you find your audience, that is one of the most rewarding parts, and part of why we make films in the first place.” - Four Nights and a Fire Report
- “Varun’s support has not only elevated the artistic and technical quality of this film, but also equipped me with sustainable post-production strategies and industry knowledge that I will carry forward into future projects.” - Braids Report

Percentage of Narratives Demonstrating Meaningful Levels of Vision Maker's Values

Gen. Wisdom

22.58%

Vision

32.26%

The provided narratives explain the entire filmmaking process, so Community shows up frequently. Filmmaking is a community effort!

Community

80.65%

Traditions

29.03%

However, Generational Wisdom, Vision, and Traditions only show up in those narratives providing more detail about their stories.

Transformation

Transformation showed up in **70%** of the narratives. It would be nice to measure this value more rigorously, too, since this touches on Vision Maker's Mission of *Empowering and Engaging Native people to share stories*.

Survey Instrument 2.0

- In our first presentation, we proposed that an improved survey instrument would help measure skills, knowledge, transformation and your four values. And, it can be administered once - after the project is concluded.
- With the short feedback given during our visit, we've improved the first version survey which could be easily implemented using SurveyMonkey. Here is the [link](#) to the improved version.
- In the future, Doane could help with the analysis of these surveys.

Mock Survey Data Results

- Students generated 100 random surveys and results
- Data should be compiled in an Excel spreadsheet
- Next slides show what kind of information we can quickly produce from this type of data

Web-based Dashboard

- [Link to interactive dashboard](#)
- Remember – this is mock data
- Filters can be customized based on survey questions
- This was not easy.

Next Steps

- Francene suggested a team of Peggy (from Doane) with Alanna, George and Marley to discuss the usefulness of the survey and whether to proceed.
- If Vision Maker Media decides to proceed with utilizing the survey, of course the survey question items would be adjusted according to the needs of the organization.
- Doane students and faculty could provide the analyses (in the form of dashboards) – at least for the next few years.

Thank you!
